Re: **Child Find - June 2018**

The Pascack Valley Council for Special Education, also known as Region II, represents seven school districts in the Pascack Valley area. These districts are Emerson, Hillsdale, Montvale, Park Ridge, Pascack Valley Regional, River Vale, and Westwood Regional. Region II provides these districts with a variety of special education services and programs.

One of these services from Region II, known as **Child Find**, informs the public about the availability of evaluations from school districts for children, ages three through twenty-one years, who may be experiencing:

- difficulties in development;
- communication delays;
- significant lags in cognitive and/or social and emotional development;
- learning challenges; and/or
- may have an already identified disability.

The enclosed **Child Find** notice will provide the community with information as to how to obtain an evaluation at no charge from these school districts. Kindly post the enclosed flyers in an area for parents and other community members for their information. Our belief that early intervention for children is key to helping them succeed.

Thank you for supporting our families and children.
