

**Booming Business & Fruits Abound for School Cafeterias** Maschio's team is so excited to get back in the kitchens and really cook! We have increased the members of our culinary team so we can provide more chef prepared meals in Maschio's schools. With many schools now in full cafeteria operation, parents and students are taking advantage of the variety of school meal offerings now available in Maschio's districts. We have prepared the re-opening of cafeterias with energized marketing and new healthy recipes.

Maschio's Farm to School program is in full swing as we coordinate farm fresh produce distribution to our many districts throughout New Jersey, Pennsylvania, and Florida. Maschio's has partnered with several farms in New Jersey over the years and we continue to work with our produce distributors in providing local produce whenever possible.

Photos shown here: Principal Aponti, Dewitt D. Barlow Elementary, Plainfield School District, helped launch this year's Fresh Fruit & Vegetable Program which provides education along with fresh produce during the school week at times other than the lunch period. Students are shown here making their own fresh produce selections to take home and share with their families.

**HOPE TOWNSHIP: Hot Lunches**

Superintendent Kevin Newman is serving hot lunch again for the first time in 2 school years! Students are loving the variety of hot meal entrées!

**PATERSON: Welcome to the New Cafeteria**

Paterson Arts & Science Charter School had their grand opening of their new building's cafeteria. Maschio's staff prepared a warm welcome for students and staff along with a delicious menu!

**LYNDHURST: Fires Up Brick Oven Pizza**

With the expertise assistance of Frank Maschio, Lyndhurst School District has just installed their new brick pizza oven. Pizza has always been a student favorite in all districts but Lyndhurst is taking it up a notch in providing freshly prepared pizzas made of a variety of fresh ingredients baked to perfection in their own brick oven. Ciao Italia!

**EDISON: Welcome Back to School**

Maschio's Registered Dietitian, Jessica Caccio answered parent questions and distributed a variety of Maschio's meal information at the recent Back to School Night in Edison, New Jersey. Many subjects including food allergy concerns, vegetarian menu options, food labels, and nutrition education were discussed through the event as parents visited the Maschio's table to become more familiar with their new food service. Maschio's has a full, competent management staff in Edison responding to the many needs a large district inherently possesses. We've placed two Chefs on site, as well as a full time Registered Dietitian Nutritionist, and an experienced Food Service Director with operational support staff. Maschio's is up and running in providing program excellence in Edison!
